TO WHOM IT MAY CONCERN

Our website/Windows Software was design and implemented by Danie de Beer / Leznad Software & Hosting. We are very satisfied with the support that he has giving us since we started on 8th January 2008.

The webpage is user friendly and even our customers gave us compliments on how easy it is to place orders.

We can recommend Danie de Beer / Leznad Software & Hosting to any company that wants to make use of their services, fulltime or Contractual work..

Yours Truly
